

# OPEN, Says me

"I saw the angel in the marble and carved until I set him free."

MICHELANGELO

You might not be able to see the bottle opener in this sheet of paper, but trust me, it's there. Fold along the lines in the correct order and you'll find yourself with your very own piece of cap-lifting origami. It takes a little finesse and creativity, but once you get the hang of it, you'll never find yourself without an opener again.
